

It has been shown that from **birth to three years** of age important physical, social and emotional growth takes place to build a strong foundation for learning and life.

Every child develops at different speeds, and milestones help guide parents during the early years of speedy development. In Georgia, the **Babies Can't Wait** program provides early intervention services on a sliding fee scale to support families through these early milestones.

Birth-3

Because Georgia's Families Matter

If you have questions or concerns about your child's development, talk to your child's physician or contact **Babies Can't Wait**.
